Vancouver's Newest Fully Guided Tour to Whistler Has a Unique Twist

VANCOUVER, BC - December 12, 2006 - Over 1000 amazing facts and an abundance of historical information await the visitor who recognizes that a fully-guided tour does not have to be costly or time restrictive if utilizing a self drive tour.

Discovery Self Drive Tours is offering a compact disc (CD) audio tour that engages the listener with all of the information one would expect to receive in a fully guided tour, and then it delivers even more.

The guides, professional broadcasters, Zack Spencer and Dagmar Midcap, share a tremendous amount of information about the Sea to Sky region. Not only are places to see highlighted, directions to outdoor pursuits such as hiking, biking, and mountain climbing are also included as you approach each opportunity.

This is where the unique twist of the Discovery's "Fully Guided" tour is created. Because this is a self-drive tour, you can stop at any time, and anywhere. You are not limited by a scheduled departure/arrival time and scheduled stops at tourist traps. Discovery Self Drive Tours motto is: "Our Knowledge. Your Choices." What could be better?

The price.

The CD version of the tour is available at a number of downtown Vancouver hotels for just \$10. However you can also order the CD by mail through DiscoverySelfDriveTours.com. The website also offers a downloadable version of the tour for just \$8.50.

Hana Lynn, Chief Concierge of Four Seasons Resort Whistler says, “this product would benefit any visitor of the Sea to Sky corridor who is planning to self drive. It is very professionally produced and narrated, is educational, entertaining and helpful.”

Further information (including an audio sample) about this product and the company is available at DiscoverySelfDriveTours.com or by contacting Larry Ryan at (778) 893-7483.
